4-H EXPLODING BACON ROBOTICS CLUB 2019 SUMMER CAMPS

Exploding Science

June 17-21: 9:00am - 12:30pm

Science and robotics go hand in hand in our **EXPLODING SCIENCE** robotics camp. Students form LEGO Robotic teams to learn simple programming, strategy and design with LEGO NXT kits to complete missions for a friendly end-week competition. Exciting hands-on science experiments and team building games round out the fun.

EV3 Robotics Camp

June 17-21: 1:00 - 4:30pm

A week-long day camp where students design, build, & program robots. The camp is enriched with mini-projects and week-long goals that promote team-work and creativity. Along with the mini-projects, student learn some of the fundamental aspects of robotics and programming thru hands on learning.
Ideal for those with some or no EV3 experience.

Visit ExplodingBacon.com to Sign-Up NOW.

Held at the Exploding Bacon Build Space: 7040 Stapoint Ct, Winter Park, FL 32792
